*Rating is based on water at a starting temperature of 40°F (4°C) at a room temperature of 68°F (20°C) **Zojirushi America Corporation warrants only the thermal insulation of this product against defects for a period of five years from the date of original purchase

Why should I get a Zojirushi cool bottle?

Cool bottles help you be more eco-friendly by reducing the use of disposable cups and bottles. Not only that, it will keep your beverage cold for hours without a refrigerator. So throw a Zojirushi vacuum bottle in your bag and stay hydrated during your commute, work or workout.

How does it keep beverages cold?

The air between two thin layers of stainless steel that make up the body of the bottle is removed to create a vacuum. Because there is no air, the temperature on the other side of the wall does not transfer over, keeping beverages icy cold for hours.

~Stainless Steel Cool Bottle Glossary~

Reduces Messy Outside Condensation:

Vacuum insulation reduces messy outside condensation when icy cold beverage is filled inside the cool bottle.

Disassemblable Stopper:

The stopper disassembles for easy and thorough cleaning.

Protective Holder:

Protective holder with shoulder strap helps reduce dents and scratches, and makes it easy to carry.

Flip Open Lid:

Lid flips open at the touch of a button.

Air Vent:

Unique air vent design allows air to flow in while you drink, helping beverages to pour out twice as faster than previous models.

Drink Directly From the Bottle:

Drink directly out of the bottle by flipping or twisting off the lid. Twist off lids are conveniently attached to the bottle to prevent them from becoming lost.

Nonstick Coating:

The interior nonstick coating makes the bottle easy-to-clean.

Wide Opening:

Wide opening accommodates large ice cubes and makes the bottle easier to clean.

Other Zojirushi Stainless Vacuum Products:

Stainless Steel Vacuum Bottles:

Vacuum bottles hold hot or cold beverages and come with a removable cup lid.

Stainless Steel Vacuum Mugs:

Vacuum mug hold hot or cold beverages and are designed to drink directly from mug.

The Story About Zojirushi:

Zojirushi (pronounced 'zoh-jee-ROO-shee') began in Japan in 1918 as a manufacturer of hand-blown vacuum bottles. Today, Zojirushi's product line extends to high-end small appliances such as rice cookers, breadmakers and coffee makers, high quality vacuum insulated products like vacuum bottles, lunch jars and carafes, and commercial restaurant and coffee equipment. The name Zojirushi means "Elephant brand" in Japanese.

Stainless Steel Vacuum Lunch Jars:

Vacuum container comes with multiple compartments to transport hot or cold foods.
